**TRUEPOINT CAPITAL NAMED ONE OF  
WEALTH MANAGER'S "TOP DOGS"**

---

CINCINNATI – Truepoint Capital, a nationally recognized fee-only personal wealth advisory firm, was again included among the nation's 100 top wealth management firms as part of Wealth Manager magazine's annual "Top Dogs" listing.

All registered investment advisors who offer financial planning services and work primarily with individuals are eligible for the listing. The Wealth Manager listing ranks firms by average assets under management per client relationship. Truepoint Capital has been included among the 478 top advisors since Wealth Managers inaugural annual ranking of 2000.

"We are committed to providing our clients with expert wealth management and unparalleled service. Being consistently included among the nation's elite firms offers tangible proof that our effort to provide clients with an integrated suite of skilled services is succeeding," said Michael J. Chasnoff, CFP®, founder and President of Truepoint Capital.

Founded in 1990, Truepoint Capital was among greater Cincinnati's first fee-only wealth management firms. The practice was founded on the principle of always acting in the client's best interest and the significant growth of the firm is primarily attributable to the referrals generated by satisfied clients. The success achieved through a clear focus on personalized service remains a commitment of the firm, which is dedicated to remaining independent and employee-owned.

Truepoint Capital provides a suite of integrated wealth advisory services to guide high-net-worth individuals and families in achieving their financial objectives. Included among the firm's services are wealth planning, investment management, tax planning and preparation, charitable giving strategies, and estate and trust services.
